scroll through questions

Homework Mode - students  
can work at home and  
download their answers  
when they get to class

Supports classrooms up  
to 2,000 students

Wireless, radio frequency  
technology

One-time cost for clickers -  
no recurring fees

Open network allows for  
easy self-registration by  
students - instantly create  
rosters

Powered by 3-AAA batteries

Create questions in PRS,  
import from publishers, or  
use PowerPoint®

Instant grading and  
reporting features

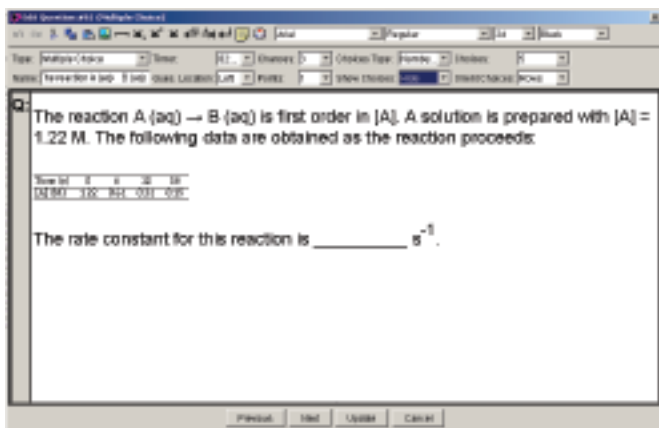

Blackboard Building Block

The newest addition to the InterWrite™ PRS family, **InterWrite™ PRS RF** gives teachers a powerful assessment tool to teach, connect and assess every student. InterWrite™ PRS RF features a **2-line LCD display** that allows students to see their answers and receive instant notification that they were successfully transmitted. The 16-character display is also ideal for **self-paced testing**, allowing students to easily scroll through a series of questions and answer at their own pace. With InterWrite™ PRS RF, students' responses can include positive and negative numbers, decimal points, fractions, multiple correct answers, answer series, and even short answers. Teachers now have a powerful tool to go beyond asking simple multiple choice and true false questions. Utilizing the latest in radio-frequency technology, InterWrite™ PRS RF also allows teachers to create class rosters instantly with its unique **self-forming roster** feature. From the smallest of classrooms to lecture halls with up to 2,000 students, InterWrite™ PRS RF is your complete student response system solution.

*Students are excited and eager to respond interactively*

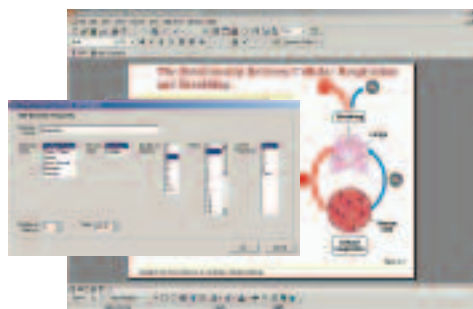

## The Most Robust Student Response System Available

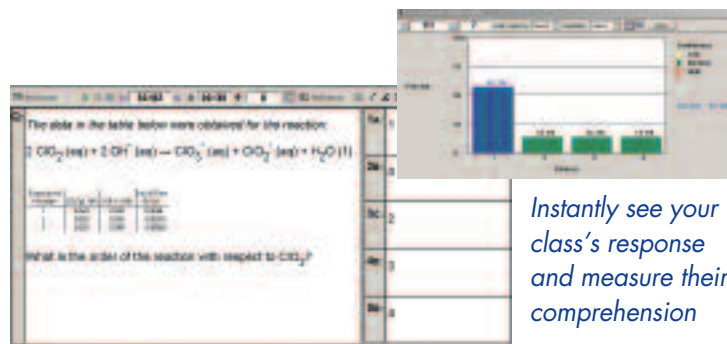

(Answer: 0.12)

- Build questions with PRS software
- Import questions from leading publishers
- Create questions on the fly

*Change any PowerPoint® slide into a PRS question slide*

*Instantly see your class's response and measure their comprehension*
